Library *Guide*

Welcome Message from the University Librarian

The entire staff joins me in welcoming you to our Library; our mission is to provide our community with the scholarly information available at AUP, as well as to serve as a gateway to other Paris resources. Our collection has become much larger than before since we joined the AMICAL consortia with other academic libraries in Europe, the Middle East and Northern Africa.

The University Library is also committed to the continuing development of the campus teaching and learning activities. In today's world of virtual libraries the help of a librarian remains your best gateway to the world of information. We can help you develop your critical thinking skills and to better attain your learning goals. I invite you to visit us often, either physically or virtually. Do not hesitate to contact us if you have any questions (*library@aup.fr*).

This guide will help you get acquainted with the University Library, its resources, services and policies. Please, read it carefully and keep it for future reference.
